Agaramvillage has lower literacy rate of 58.28 %

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT AGARAM VILLAGE:

I am the leader of this village. For so many year's we have been facing water scarcity. All the lands have become dry due to extreme heat and the only pond that we had also dried up. All the villagers were in tears because they was no where we could get proper clean water and we had to pay a huge sum of money to the shops in the near by town to buy water. Now this bore water facility has brought to us real blessing from Heaven. I take this time to thank you on behalf of our villagers from the bottom of our hearts for coming forward to help us with the need of the hour. Children are now having good and clean drinking water and we are now able to get water throughout the day with the help of a motor that has been fixed. Now this has solved all our water needs for our household. God bless this Project. Thanks to Abba Drinking Water Project.

Ammanambakkam village has lower literacy rate of 60.17 %

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT AMMANAMBAKKAM VILLAGE:

My name is Rangan and I am living in this village for the past 44 years. This village once had wells overflowing with water. We have two wells in our village but in the past few years these wells have got polluted and it has now got totally dry due to this summer season and they are no more under use. I tried many at times to clean the well by people so believe that the water from this well is poisonous and that it cannot be used. With all this difficulty we started to buy water and even the Can water that we buy is not good and because of this all our villagers are getting sick very often. Even two children have died due to this. There has been no action taken by the government regarding this. Now we are so thankful to the Abba drinking water bore well that has given us all real Life in our hopeless situation. We are so glad to see fresh water right there in our own village and it is so clean and that it can be accessed anytime during the day. This summer season we are truly blessed by this great help done by you. All the women and children are all so very happy to have got this wonderful blessing. Thanks to Abba Drinking Water Project.

Arasur Village

ABBA DRINKING WATER PROJECT 2018

ABBA DRINKING WATER TANK AT ARASUR VILLAGE BENEFITS OVER 3779 PEOPLE.

In Arasur village population of children with age 0-6 is 375 which makes up 9.92 % of total population of village.

Arasur village has lower literacy rate of 62.49 %

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT ARASUR VILLAGE:

I am the municipal counselor for this village. We are a very big village and we are always dependent on water from our neighboring villages. Recently we have been refused to take water from them because they have insufficient water and the only lake they had also has dried up. In our area there is no means to get water and all the women walk long distances to get water. There was no other option and many at times our cry reached the deaf ears of the government. I am so thankful to Abba drinking water project for coming forward to help us with a bore well tank. When the water was drilled we were all so filled with joy and happiness seeing water gush out through the drills. All my villagers are very happy and satisfied with this wonderful deed done to us. We will never forget this help done to us and the women are now very happy to get water in their own village and that they needn't walk long distances any more.

ABBA
DRINKING WATER
PROJECT-2018

Chinnavelikadu Village

ABBA DRINKING WATER PROJECT 2018

ABBA DRINKING WATER TANK AT CHINNAVELIKADU VILLAGE BENEFITS OVER 1152 PEOPLE.

Chinnavelikadu village has lower literacy rate of 66.96 %

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT CHINNAVELIKADU VILLAGE:

My name is Shankari and I live in this village for the past 14 years. I have two children and I love my village very much. In our village there are many small children. But for the past few years during the summer season we are facing acute water shortage. Children have no access to clean drinking water and they try to drink water from the polluted ponds and lakes on their way to school. We try to bring water and try to boil them so that it can help us but sometimes it fails too. Children get dehydrated on their way to school and many at times they are carried back home sick. This is the present situation of our village. Many politicians have promised us to drill a well and give us water connection but no one ever returned to help us. Even this time when the Abba people told us about the bore well project, I did not believe it personally. But now I would like to really thank the Abba project leaders for making this dream come true. We are now having access to clean drinking water in our own village throughout the day through your great heart. All the children have now plenty of water to carry with them to school and they are no more getting sick. I along with my fellow villagers take this time to salute Abba drinking water Project for this unforgettable help done to us.

ABBA
DRINKING WATER
PROJECT-2018

Easur Village

ABBA DRINKING WATER PROJECT 2018

Easur village has lower literacy rate of 67.74 % .

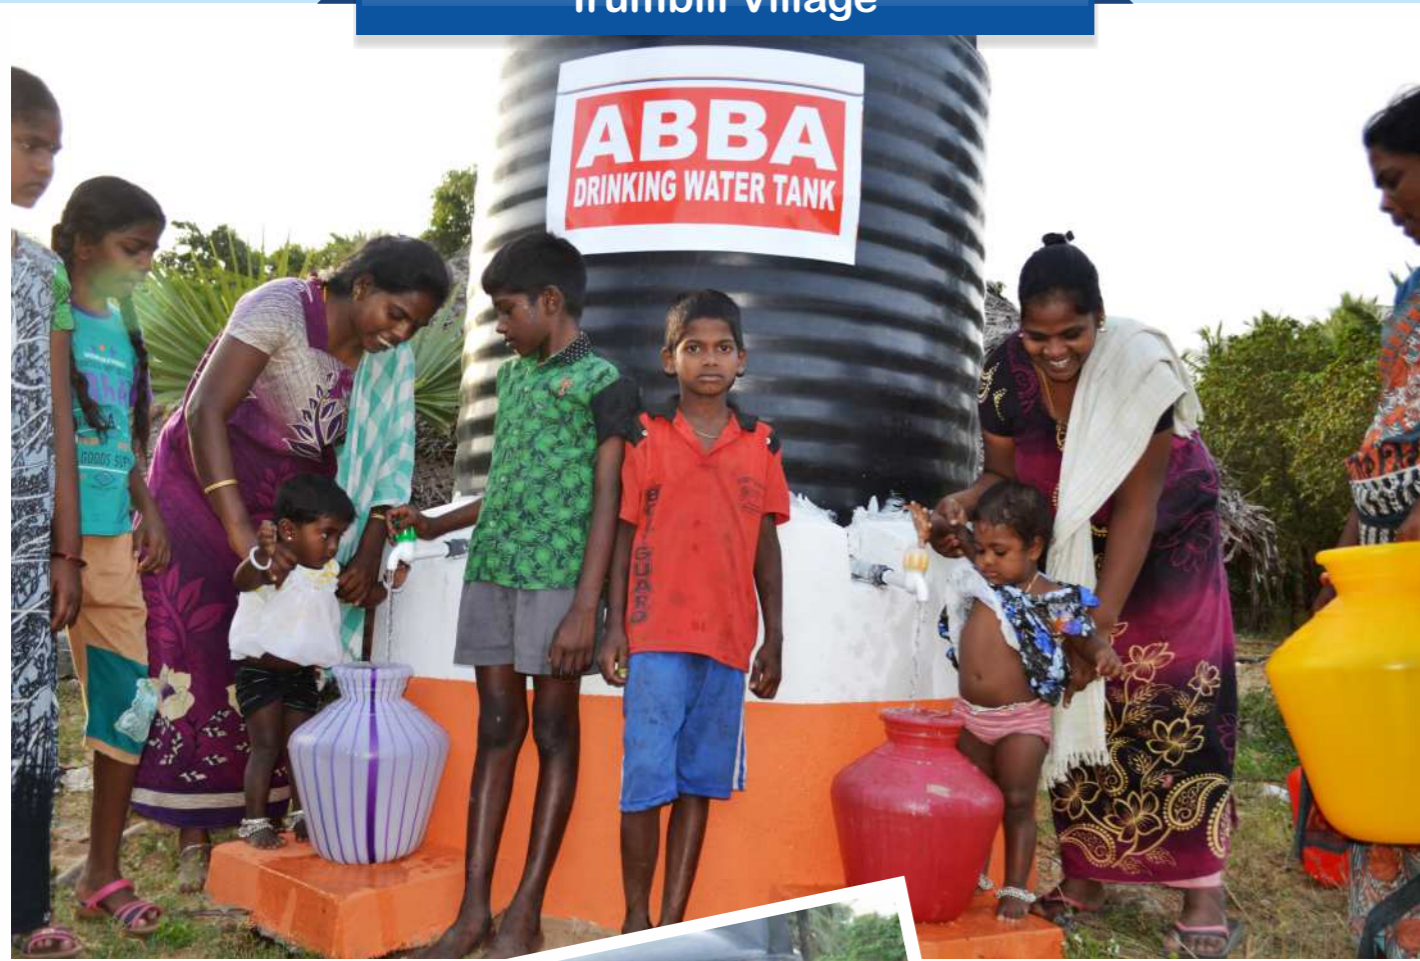

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT EASUR VILLAGE

I am the Panchayat leader of this village. I saw this village flourish for so many years and our village has always been a helping source to many other near by villages with water. But for the past four years we ourselves have no water to help ourselves. All our water bodies have totally dried up and the river that we had has now totally dried up. Water has become the major problem and it has to a vast extent affected our day-to-day life. Cooking, washing, drinking, bathing etc. water is needed for all these factors but above all drinking water is a must. Cooking with unclean water has totally changed the taste of the food and it no more tastes good like before. We are struggling with this basic need. When the Abba water Project team came to us to enquire I was literally in tears and only hoped that at least this organization will not forget to help us. To my surprise I saw work immediately start and the bore water was drilled and we got plenty of water now and also I am thankful to the tank in which water is stored all day for us to have easy access to it. We have now all got back our former life of happiness. We are able to eat good and drink clean water and

Irumbili village has lower literacy rate of 64.30 .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT IRUMBILI VILLAGE:

I am venkat and I am a teacher in a government school. I really want to thank the Abba bore project for the immeasurable help done to my villagers and me. Many at times I have gone to the government office to ask for a bore well to be drilled but all my petitions brought no answer. I am rather so surprise that this dream that is now been fulfilled and is now in action. All my villagers always say that one day only God should come down to help in our need. So I can very well say this is God in you that has made this possible for us. I am so happy to see all our mothers take water and cook good food for us. Also I now see children all get access to good drinking water and they are coming to school regularly. Children are no more getting sick often and they are now getting healthier day by day. We are a happy village now and we will certainly pray for such good-hearted people who do exist to help people like us. I take this time to thank Abba for this greatest help and we will not forget this help.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT KADUGUPATTUVILLAGE

My name is Srinivasan and I live in this village for the past 50 years. Due to the heavy heat and the increase in global warming everything in nature has changed and this has intern caused effects on water. Water is no more available everywhere like before. It has now become a demanded commodity. Water is got only with money and even that water is not reliable. People sell water for money but fail to realize that they should give clean and purified water. Our village had a sudden raise in water borne diseases. All that I could do on my side is to write to the companies selling water but all was in vain. There was no action taken by anyone. At this situation we got the people of Abba visit our village. We were so happy to see them and hope that they will at least help up. To our surprise Abba Team came forward to drill us a bore well and things were all done so fast and now we stand with our hands joined together to thank Abba bore well Project for doing all what was told. We are indeed so blessed to know such an organization. All my villagers are so very thankful right form the young to the old for the big help done to us to get free access to water throughout the day and also for making us all healthy and strong.

Kalkulam Village

ABBA DRINKING WATER PROJECT 2018

In Kalkulam village population of children with age 0-6 is 113 which makes up 9.35 % of total population of village.

Kalkulam village has lower literacy rate of 65.84 %.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT KALKULAM VILLAGE:

My name is Sarala and I along with the other women in our village we almost walk for two and a half hours everyday to fetch water. There were many times we have been deprived to take water and there were days when we returned with empty pots. The village that we take water belongs to the higher class of society and sometimes they simply deny helping us. There were times when the people there will break some of our pots. But all that we had to do is only endure the situation. Having water in our own village was only a dream. It was all that we wanted but it became into a reality when the Abba people came to enquire us. We got a new hope seeing them and believed in all that they said. To our surprise we had the huge bore well tanker come to our village one fine day and I still remember how excited all of us were to just see this happen. I couldn't believe my own eyes when water gushed out. All the children got wet in the water and it was a celebration on that day. I and the other women in my village along with our children and family members stand to say a big Thank You for helping us at the need of the hour. With your help we are now no more walking distances to fetch water. We get water in our own village and we are forever thankful to this help.

In Kolathur village population of children with age 0-6 is 126 which makes up 10.45 % of total population of village.

Kolathur village has lower literacy of 74.44 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT KOLATHUR VILLAGE:

I am the village leader and my name is Faizel. It really pains my heart to see small children getting dehydrated and sick every day. Almost every day or the other children and elderly people are being carried to the hospital for water borne diseases. We have also lost 4 children due to this in the recent times. Water is a major problem during this season. It gets a little better during end of the year. But till then all of us are getting penalized. Government has taken no stand for us till date. We had some good-hearted people from Abba come and ask us about the situation we were facing and they were so kind enough to drill a bore well for us. My villagers and I are so very happy to this biggest blessing that has been given to us. Every day women come and collect water in their pots to take it home to meet all their water needs. We are no more buying water and all of us are living a healthy life now. Children and elderly people are now getting healthier day by day. I am forever grateful all my life to Abba for this biggest help done to us. God bless you and give you more blessing for you to help many more villages like us in need.

ABBA
DRINKING WATER
PROJECT-2018

Lathur Village

ABBA DRINKING WATER PROJECT 2018

In Lathur village population of children with age 0-6 is 148 which makes up 11.63 % of total population of village

Lathur village has lower literacy of 68.89 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT LATHUR VILLAGE:

My name is Muthu and I am in this village for the past 6 years. I got married and came to this village and since then this has been my place. All our crops have all got dried up in the recent years and our yield has drastically come down due to insufficient water. I am a farmer and I know how much water is needed for crops to grow. Slowly this water problem started to affect our families. We had no good water to do cooking drinking and also for our basic needs. This situation got worse during the summer season. Lakes and ponds are all dried up due to extreme heat. There is only one well that has little water through which we are able to live and even in that we do not get water everyday. Thanks to Abba for changing our hard situation. After Abba coming into our village our basic need for water has been solved. We are now able to get pure and clean drinking water that we use for cooking bathing and washing throughout the day. Water is so in plenty that all our needs are being catered to. We are so blessed to be a part of this wonderful project. God bless Abba Drinking Water Project.

In Madayambakkam village population of children with age 0-6 is 120 which makes up 10.06 % of total population of village.

Madayambakkam village has lower literacy of 77.45 % .

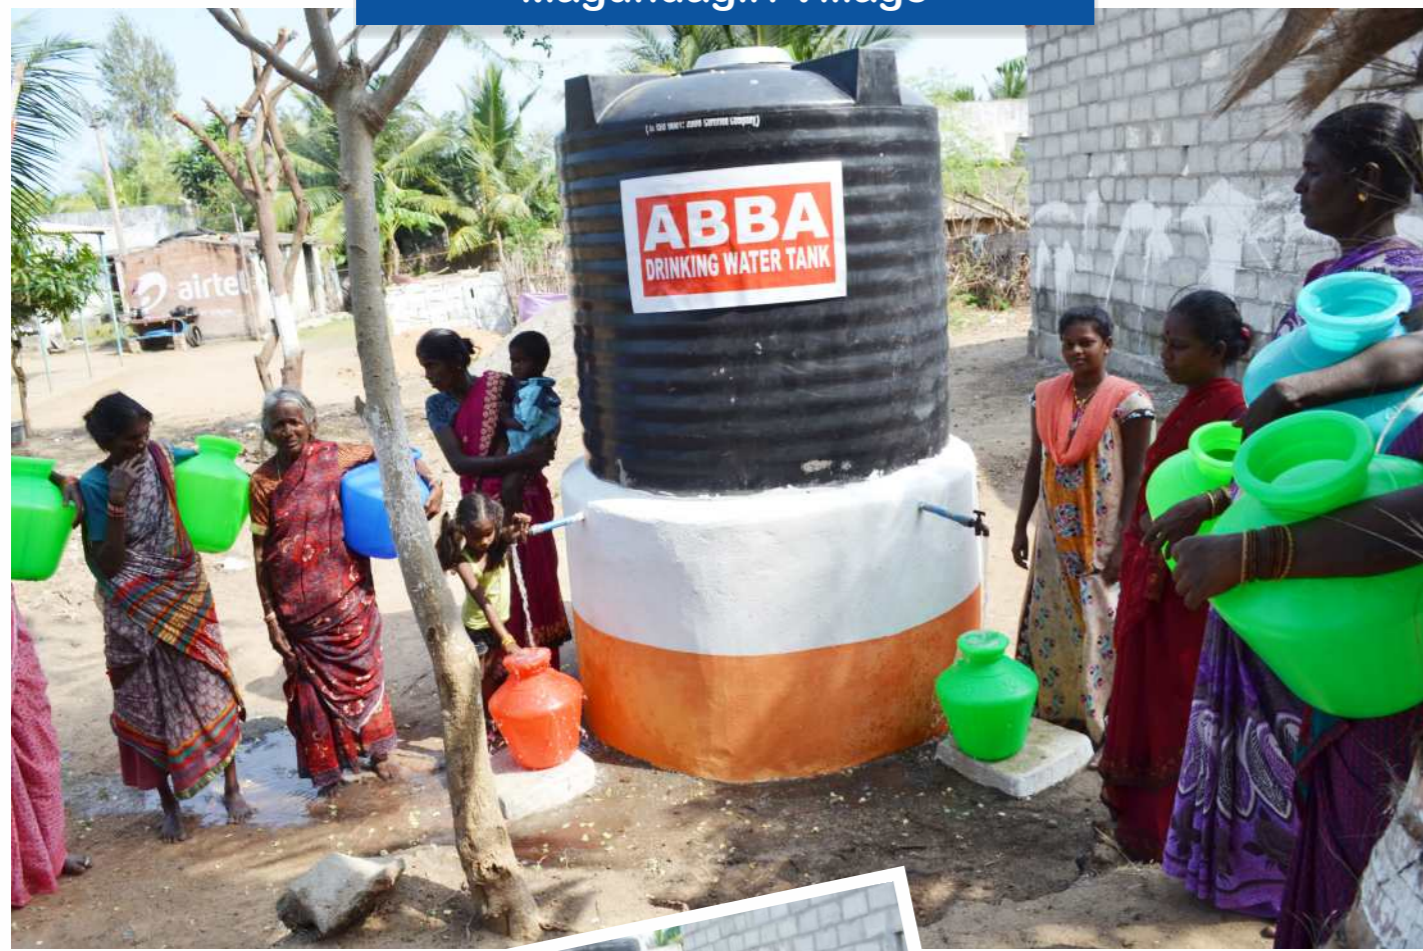

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT MADAYAMBAKKAM VILLAGE:

I am Kannan and I am a farmer. My life was all doing good till we started to face water shortage in our village. For the past four years we are facing acute water problem. My daughter got affected with severe fever and cold initially and later not she became very sick and things went out of our hands. The doctors diagnosed it to be a disease due to having unclean water. Later we could not save her life and she left us. Since then I always wanted children to drink good safe water and tried my best to give petitions to the government to drill us a bore well but till date there has been no action taken. Many children are falling sick and then and in this critical situation the Abba bore well people came to our village. This was a dream come true. My so long sought answer came by. Now because of Abba we have our very own bore well drilled with a big tank fixed over. Now all the children and every young and old are getting free drinking water throughout the day. I thank Abba for making this possible in our village and saving lives of many innocent children.

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT NEELAMANGALAM VILLAGE:

I am Village Leader Ramya and I sell vegetables for a living. In recent years the yield has dropped drastically. Even the prices have gone up due to this. Water has been on real shortage to water crops. So at times crops dry up and the yield is very less. Likewise even at home people find it real hard to do cooking washing and also drinking has become a greater problem. In this situation we had the Abba people who came forward to help us drill a bore well. I take this time to thank on behalf of all the villagers. We are now no more suffering with this water problem. We are able to get access to good clean water from the constructed bore well tank through the day. People are able to use this water for drinking washing cooking and for their basic needs. There is plenty of water and everyone say that this is more than sufficient for their daily needs. I thank Abba for such an amazing help done to our village. Thanks to Abba Drinking Water Project.

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT NERKUNAM VILLAGE:

I am a Village Leader and 45 years old. I was s born here and this village has always been a wonderful place to live in with all its wonderful nature and water bodies. We had two ponds and a lake in our village. But in these recent years we are facing horrible water scarcity and all the ponds and lake has dried up. People in our village have no other option than to just get to the town areas and buy water cans that costs us a lot of money. Life is been going on like this for years during the summer seasons. I take this time to thank Abba bore wells for coming forward to help us in this situation of ours. Now after this bore well we are no more facing such water problems. No one is going to buy water now but instead we have 24/7 access to clean water in our own village. God bless Abba Drinking Water Project.

ABBA
DRINKING WATER
PROJECT-2018

Pakkur is a medium size village located in Cheyyur Taluka of Kancheepuram district, Tamil Nadu with total 326 families residing.

The Pakkur village has population of 1229 of which 599 are males while 630 are females as per the survey of census by Indian Government.

In Pakkur village population of children with age 0-6 is 111 which makes up 9.03 % of total population of village

Pakkur village has lower literacy rate of 67.98 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PAKKUR VILLAGE:

I am The Leader of this village for the past eight years. I love this village very much. My name is Kumar and I have seen this village suffer of acute water shortage during the summer seasons. During wintertime it is quite manageable since we take water from the near by lake but summer season this lake gets dried up. Right from children to old people all of us suffer during this part of the year. I have logged in many complaints and the local government office has not taken my petitions. Many times people come before the elections and give us tall claims to fulfill all our needs but this just fades away once they all reach their position. I am so glad to see Abba has come forward to help us and initially I did not believe that this would happen but Abba made it all possible for us to enjoy clean drinking water. I on behalf of my villagers salute Abba for this great help done to our village. Children are all very happy to have access to fresh water throughout the day.

In Parukkal village population of children with age 0-6 is 129 which makes up 9.23 % of total population of village.

Parukkal village has lower literacy rate of 71.16 %.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PARUKKAL VILLAGE:

My name is Gauthami I m the Village Elected Leader and I love my village very much. Recently we have been facing extreme draught conditions in our village. I have 2 cows and 2 buffaloes with us. But during this summer season we are facing water scarcity and we even lost one of our cow due to extreme heat and insufficient water. Even at home for us to cook and fulfill our basic water needs it is a real task. Sometimes I walk distances to get few pots of water for my animals and for our cooking and drinking purpose. Life has been really hard for us to live with less water. I am now very happy After Abba came forward to help us all in the village by drilling a bore well. After this facility we have plenty of water for our daily needs. I am able to take water throughout the day and give my cattle too. Thanks to Abba Drinking Water Project Team for helping us in our hopeless situation during this summer season.

Pavunjur Village

ABBA DRINKING WATER PROJECT 2018

In Pavunjur village population of children with age 0-6 is 145 which makes up 10.29 % of total population of village.

Pavunjur village has lower literacy rate of 76.42 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PAVUNJUR VILLAGE

Water is a very important part of our life. It is nature's gift to mankind. But for the past recent years due to extreme pollution water has become contaminated and the use of plastic has made even the little water to get bad. The only lake in our village was all clogged and during this season it had completely dried up. I am a social worker and I always tried my best to talk to the government to take action to drill us a bore well. But till date no action has been taken. One day we had the Abba bore well people graciously came to our village and asked us our requirement. I along with my other villagers asked them if they could help us with a bore well. To my surprise one day we had this dream come true in our village. I really thank each and everyone who has been the reason behind this wonderful help. God bless you. We are now having clean and safe drinking water and water is no more getting polluted. Thanks to Abba Drinking Water Project.

In Perambakkam village population of children with age 0-6 is 125, which makes up 11.41 % of total population of village.

Perambakkam village has higher literacy rate of 82.49 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PERAMBAKKAM VILLAGE:

My name is Kalaiarasi and I am the President of the Village I sell fish for a living. I catch fishes from the near by river and lake. During this summer season there are not many fishes since the water has all dried up. Even all the villagers were dependent upon these water bodies for their daily water needs. During the summer season things have all got worse and people become sick due to drinking unclean water. I really thank Abba for coming forward to help us in our need. We so needed this bore well to quench our thirst and also for cooking purposes. This bore well is a great blessing to all of us. Children are now getting good in health after getting good water to drink everyday. We are all forever grateful to Abba Drinking Water Project for helping us.

Periakalakadi Village

ABBA DRINKING WATER PROJECT 2018

The Pondur village has population of 1557 of which 762 are males while 795 are females as per the survey of census by Indian Government.

In Pondur village population of children with age 0-6 is 181 which makes up 11.62 % of total population of village.

Pondur village has lower literacy rate of 71.37 %.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PONDUR VILLAGE:

I want to take this time to thank the Abba bore well Project for coming forward to drill a bore well in our village. I am the Taluka head of my village. I have received many pleas from our villagers to drill a bore well but I have failed all the time since the higher authorities did not take any action neither was there any funds for this need. Many at times I feel that I have failed in my position to help my villagers. I am so thankful that Abba could come and help us at the right time of our need. We are all so very thankful to get fresh water right in our own village during this summer season specially. Women in my village need not walk distances to get water anymore and they all say a big thank you for making this facility in our own village premises.. God bless this company and make you a blessing to many more villages in need of water.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PORAIYUR VILLAGE:

My name is Esakkimuthu and I am so happy about this newly constructed bore well tank. I saw smiles back again on all our villagers face only after the bore well came in. It has always been time of distress thinking about the hard times that we were going through without water. Our children were the most affected ones without clean water. They often got sick and we were not able to treat them properly. All our petitions to the local government officers were not carried out at all. But now it is like a dream to have clean and good water in our own village with the help of Abba. My villagers and I will never forget this big help done to us and our children are now in good health and strength and they are able to go to school regularly and study well. Also we are able to get proper drinking water throughout the day and cook good food. Thanks to Abba Drinking Water Project.

Porur Village

In Porur village population of children with age 0-6 is 95 which makes up 7.98 % of total population of village.

Porur village has lower literacy rate of 72.90 %.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PORUR VILLAGE:

I am Gautham and I live in this village for the past 30 years. I have always been so proud of my village and its greenery. But for the past few years all the greenery has disappeared due to water scarcity. This year even drinking water has been deprived for us. The wells that we had and that we depended on all got dried up. This made us to go so upset with our present life that we were not able to alter. Later we started to buy water from the towns but even that water was not good enough. We started to spend more money to buy water. I am now so very happy and thankful to Abba for coming forward to put us a bore well tank. I on behalf of all my villagers take this time to thank you all for this great help. We are now able to fulfill all our basic everyday needs. No more we are spending money buying water. we are not able to get clean water right in our own village. Thanks to Abba Drinking Water Project.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PUDUPATTU VILLAGE:

I am Hashish and I am the Village Administrator. This year has been the warmest year and all our crops have dried up due to shortage of water. Only groundnuts are growing without water. Also few months back we lost a precious soul in our village due to water borne disease. We tried our best to save that little child but all in vain. Children tend to drink any water when they get thirsty on their way to school. I am so grateful that now there is a way to stop things like this happening anymore. We are all so very thankful to have our own bore well tank from which we can get clean and fresh drinking water throughout the day. Children take water in their water cans enough for the day to school now. They are all so very happy and thankful too. They are all in good health now. I thank Abba Drinking Water Project for giving us this precious gift of water to our village in this summer season.

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PUTHIRANKOTTAI VILLAGE:

I take this time to thank Abba bore well Project for all the big help done to our village to get good clean water. I am Naidu and I work in the corporation office cleaning drainages. At my home my wife everyday walks for over two hours to fetch water for our daily usage. She was getting very sick because of this. But still she went on to bring water everyday for the sake of my children. Life was getting very hard on us. Now after having this blessing of water in our own village I am so very thankful to Abba for blessing us with a proper bore well tank. All our need has been resolved and my family is a happy family now. My wife along with all the women in our village send their gratitude for all the Abba staff for making it all a success. Without Abba we would have been still suffering. Thanks Abba Drinking Water Project for giving the Elixir of life.

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT SIRUNAGAR VILLAGE:

Dear Team Abba Bore well Project, I am Rangan and I am so blessed to know you all. I am in my village for the past 48 years. Water has always been an acute problem during summer seasons since we are all mostly dependent on the lake and river that passes by our village. This summer season gets very hot every year and the water dries up leaving us with no water at all. All of us right from the young to old suffer with water scarcity. There were times when we were visited by many politicians telling us that they would drill us a bore well but none of them returned back. Even political parties come and give us tall claims but fail to do when they reach their power. Life was in fact becoming a danger to us during this season. People started to buy water and even that was no good and all of us fell sick. But I am very much surprised about the Abba group of people who fulfilled their word. We are now having clean and safe bore well water and that is all due to you people. I want to thank you all on behalf of all my villagers from the bottom of our hearts. We will never forget this big help done to us. Thanks to Abba Drinking Water Well Team.

Thandalam village has lower literacy rate of 65.30 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT THANDALAM VILLAGE:

I am Elected Leader of this Village Poornima and I am a mother of two children. My daughter fell extremely sick and was taken to the hospital a month back. The doctors said it was due to a stomach infection that was caused due to drinking unclean water. With much struggle we were able to bring my daughter back home. I only had the fear of getting good water and was trying my best to protect her further from not getting sick. Everyday I walked distances to buy water from a shop in the town area. Life was getting stressful. It was during this time we had the people of Abba Drinking Water Project come and meet our village. In few days they fulfilled what they had told us. I couldn't believe my eyes. Because of their good deed my villagers and I are able to get clean water throughout the day. I personally I am blessed to have this water so that I can give my children clean drinking water and save their lives. Thank you so much Abba Drinking Water Project Team for this great help at the right time of my need.

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT THENPAKKAM VILLAGE:

My name is Kalimuthu and I am President of this Village. I lost my wife recently due to a severe stomach infection disease. She was dying in pain due to this and finally the doctors said that it was due to water borne disease. In our village this water shortage is inevitable during the summer season. I tried my best to save my wife's life but all was in vain. I many times requested the local government office to drill us a bore well but there was no consideration cause we are a Dalit society village. I have always not wanted this to happen to any one else in my village especially to children. I am indeed so blessed to see Abba Drinking water team came and help our village. Thank you so much for drilling this bore well. I am so relieved mentally now and I am sure that all or villagers right from small to the old people will all be in good health. This truly is a blessing and I am so grateful to Abba Drinking water Project for this big help done to my village.

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT VENMALAGARAM VILLAGE:

I am Delibabutha the President of this Village. Our village is the most affected village with water borne disease. There have been many children falling sick very often. The medical unit is of a great help to us in such situations. After Abba Missionaries coming into our village we had only good things happening. One remarkable thing is the bore well being drilled in our village, which solved all our water scarcity. Before we did not have water to even fulfill our basic everyday needs. We were facing acute problems in cooking drinking bathing etc. But now we are so happy and we are able to see water come throughout the day. We are able to access water for all our needs for free. Our children were all so excited to get water and they started to play with water after a very long time. For them it was a real blessing. I thank Abba Missionaries for bringing us all the joy that we needed and for giving us safe and clean drinking water in our village.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT VEDAL VILLAGE:

I am Kirubakaran and I am the Head of the Village Council. I have been witnessing all the water scarcity that we are going through for the past 3 years. I tried my best to do help for our village but nothing was able to achieve. Everywhere people ask for huge sum of money and we were not able to do anything. Political parties always come and say tall claims but they fail to fulfill all that they have said. But I am very surprised to see an organization like Abba could make a huge impact on our village drilling us a bore well. I am so thankful to Abba Team and also all my villagers are so blessed with this amazing project. It has been our cry for these years and the answer was through Abba Drinking Water Project we were able to get good and fresh water. This has solved all our needs. Women are all so very happy that they need not walk so long to get water. Also children get plenty of water to carry to school. Then cooking is made so easy and washing and bathing too. Abba Team you have stolen our hearts and we will forever remember you for this great help done to us at the right time without any demand. God bless Abba Team and Donors.

Thondamanallur village has lower literacy rate of 67.25 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT THONDAMANALLUR VILLAGE:

My name is Arasithe elected leader of this village and I run a small teashop. For the past 3 years there has been no proper supply of water. There was a water tanker that used to come and give our village water where we all would run to get at least two pots of water twice a week. But For the past few years this water tanker is not coming. This has made our life really struggle for all our basic needs. Bathing and cooking and washing dishes have become a task. We buy water packets for our usage but it is very difficult. There were days when I was not able to take bath due to water shortage. That too during this summer season all our people get affected with skin rashes due to lack of cleanliness. This Abba bore well that has been erected in our very own village is like heaven to us. After this came in we are able to meet all our basic needs and also drinking water is so good and tasty from this bore well. I really thank Abba Donors from the bottom of my heart for this huge help done to my village.

Poongunam village has higher literacy rate of 81.62 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT POONGUNAM VILLAGE:

I am Suresh the President of this village I take this Opportunity to thank Abba Drinking Water Project for the greatest help done to my village. Now we are all so very blessed to in fact receive fresh and clean water. Before Abba Missionaries came in to our village we were facing extreme water scarcity and we did not know what to do. Right from small children to elderly people all of them were getting sick due to unclean water related diseases. We also had a small baby die a few months back due to this. The loss is irreplaceable. We are all only dreaming of a blessed life and knew that nothing can happen fast and the government will do in its own time. But to our surprise Abba Missionaries came into our village and changed our entire situation and took away all the dark clouds by giving the Elixir of life. I should really appreciate the time that they took and how swiftly constructed the tank and did all the necessary things for a bore well within few days. God bless Abba to be a blessing to many more villages in need.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT POLAMBAKKAM VILLAGE:

I am veraragavanthe Senior Citizen and Advisor of this Village and I live in this village for the past 78 years. I love my village for its water and greenery. But for the past few years the weather has become very hot and all the water bodies got dried up. Greenery has decreased to a vast extent due to shortage of water. Summer seasons have become a task even for us to survive now days. This year we have been facing acute water problem. I had placed many complaints on to the local Thaluka Office but all in vain. Later we had a group of people coming from Abba Society to help us. I felt so relieved looking at them. All I thought was if only they could do what they say that would be a great help. In a couple of days I saw them coming with the bore Machine Truck. My heart was so overjoyed looking at it. All the women children and everyone in our village celebrated that day like a festival. I am indeed so very thankful to Abba on behalf of all the young and old in my village. Truly Abba is a blessing to us. We enjoy continuous water supply throughout the day due to Abba Drinking Water Tank. Thank You So Much.

Perumbakkam village

ABBA DRINKING WATER PROJECT 2018

Perumbakkam village has lower literacy rate of 67.16 %

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PERUMBAKKAM VILLAGE:

My name is Kodikathakumaran Elected Leader of this Village and we have many children in our village. Children get sick very often due to drinking unclean water. The summer has dried up the water well that we were dependent on. Even we are finding it very difficult to wash vegetables, rice and do cooking. I along with the other men in the village go everyday to buy water from the town area. We sometimes have to pay a lot to get the can water. My family income is very less and spending money on water leaves us only with water and rice. There have been times that only water and rice was our food. One day we had a group of people come from the Abba Drinking Project. I was so happy to see them and came to know that they were planning to drill us a bore well for free. Now this has been fulfilled and I am so happy to say that Abba Project has brought back all our smiles and hopes. We are now able to have proper drinking water in our own village and we are able to cook vegetables and eat well. Children are all very strong and healthy now. Thanks to Abba Drinking Water Project for this big Donation.

Perukkaranai village has lower literacy rate of 71.07 % .

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PERUKKARANAI VILLAGE:

I am Shruthi elected Leader of this Village, I live in this village for the past 36 years. Things have always been so good here but for the past few years we are all facing water shortage. The summer has made it all very bad. Women at home find it very difficult to manage all the household work without sufficient water. Washing clothes every day and cleaning the place we live and washing vessels, cooking and bathing is all a big task for us. How much ever water we buy it is very insufficient. Water is a very important part of our life and drinking water supply has now become a question. I am so thankful now to Abba Team for giving us the freedom to consume our own water from our village. I know how much this will help all the women and family. Definitely Abba Drinking water Project has given us all the joy through this wonderful bore well tank. All of us in this village now are able to get water throughout the day for free. Thanks to ABBA Drinking Water Project Donors.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT PANAYADIVAKKAM VILLAGE:

I am Dhayalan the village head. I am so well pleased and thankful to Abba Missionaries for coming forward to help my village to have access to clean drinking water. The bore well is drilled so well and we are all able to get plenty of drinking water. Also the tank constructed is very useful to store enormous amount of water. It stores up water every time and we are able to get access very quickly. I everyday see women come and take water in water pots, children come and take water in their water bottles before going to school and this water is so very clean and fresh. Sometimes I also find children coming and playing in the water when the sun is up. Abba drinking water has now totally changed our life to the best. All our dark days have gone and we are all having a blessed life now. Thank you Abba Team so much.

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT KOKKARANTHANGAL VILLAGE:

My name is Vinayagamoorthy and I am the elected President of this Village and I am living in this village for the past 55 years. This village once had wells with clean water. We have two wells in our village but in the past few years these wells have got polluted and it has now got totally dry due to this summer season and they are no more under use. With all this difficulty we started to buy water and even the Can water that we buy is not good and because of this all our villagers are getting sick very often. Children are the ones getting affected very often with this. There has been no action taken by the government regarding this. Now we are so thankful to the Abba drinking water bore well Project that has given us all real Life in our hopeless situation. We are so glad to see fresh water right there in our own village and it is so clean and that it can be accessed anytime during the day. This summer season we are truly blessed by this great help done by this team. All the women and children are all so very happy to have got this wonderful blessing. Thank You ABBA Drinking Water Project Donors.

LETTER OF THANKS WITH APPRECIATION FROM THE VILLAGE LEADERS

FOR THE FAVOURABLE INSTALLATION OF THE ABBA DRINKING WATER TANK AT KODUR VILLAGE:

My name is Mariyamna and I am the Leader of this Village and I along with the other women in our village almost everyday we walk for two and a half hours to fetch drinking water. Sometimes the people there will break our pots in that village since they were all high caste people. But we couldn't do anything about this. Having water in our own village was only a dream. This became a reality one day when the Abba Team came to enquire us. We got a new hope seeing them and believed in all that they said. To our surprise we had the huge bore well driller come to our village one fine day and I still remember how excited all of us were to just see this happen. I couldn't believe my own eyes when water gushed out. All the children got excited to see water after so many months. I and the other women in my village along with our children and family members stand to say a big Thank You for helping us at the need of the hour. With your help we are now no more walking distances to fetch water. We get water in our own village and we are forever thankful to ABBA Drinking Water Project.
